Fantastic! Also, I agree with you Blaine will be a really good board member as well! Like you, he understands it's a private shareholder owned company, not a public utility, that is a major thing I'd want in a director! But a professional CPA, with both POA and non-profit experience, WOW, that's another level! Again, congratulations! Brad

Thanks Brad! I will certainly do my best! And I've never been shy or been accused of not speaking up, so I don't think there will be a problem there! I think Blaine is going to be a really good board member as well! KW

>
> Please, don't let anyone co-opt you or tell you that's not how it's done here! I know for several of us, that was the point in electing you - to get your professional experience added to the board, to get things done here professionally - like a normal POA anywhere, with normal standards like any shareholder owned organization would anywhere else! (The last Board did a good job in most cases but above the scheduled change of electing new members, there truly is room for improvement so that gives you, and the BOD if they listen to you, a chance to shine.)
